I'm a motivated Software Engineering student at Emobilis Technical College seeking **software engineering internship opportunities** to apply and grow technical skills in a real-world environment. I have some experience in developing, testing, and maintaining web applications, with a solid foundation in Java, Python, and web technologies. Strong problem-solving ability, teamwork skills, and a willingness to learn while contributing meaningfully to engineering teams.

EXPERIENCE

Software Engineering Intern (Trainee)
Google, Nairobi, Kenya
Feb 2026 – Present

- Supported senior developers in designing, coding, and testing web applications.
- Assisted in debugging, testing, and documenting software features.
- Used Git for version control and team collaboration.
- Participated in Agile development processes including stand-ups and code reviews.
- Contributed to scalable solutions using Java and Python under supervision.

SKILLS

- Web Development (HTML, CSS, basic JavaScript)
- Python
- Java
- Git / Version Control
- Problem Solving
- Team Collaboration

LANGUAGES

- English — Advanced
- Swahili — Native

EDUCATION

Bachelor of Software Engineering
Cooperative University of Kenya, Nairobi
May 2026 – Future

PROJECTS

- **School Website Development**: Built a responsive school website using HTML and CSS to share announcements, contact information, and academic details, improving online visibility and communication.Click to view https://mansolo-21.github.io/Noharihub/

ACHIEVEMENTS

- Fastest 50m freestyle, Ongata Senior School Swimming Gala
